We aim to provide **well-designed, handcrafted** silver jewelry at considerably less than retail to **wholesale prices**. We strive for the finest quality and affordability for **silver jewelry** that will last a lifetime.

Our goal is to offer jewelry designs for the individual that make a statement. We follow the latest Japanese jewelry trends, specializing in **Gothic skull jewelry or biker skull jewelry**. While browsing through our collection of **rings, pendants, lighters, earrings, necklaces, bracelets**, money clips, nose rings, eyebrow rings, **gemstone rings** and **pendants**, wallets, **wallet chains and skull T-shirts**, you may decide to have a piece **custom-made**.

If you would like to custom order a piece, please let us know. Our gemstone rings can be made with different gemstones to suit your color, shape, size or mood. Our **wholesale prices** start at 500 grams.

INFORMATION

About us

As with any **custom made jewelry**, it takes time to make an individual piece. We usually have at least one of each item on stock. At present our artisans require three week's manufacturing time for items that you see on our site. Gemstone pieces require four weeks' manufacturing time. Please allow another week for shipping time and you will be pleasantly surprised to have a made to order piece. Each item is meticulously handcrafted for the most discerning customer and hand inspected by myself. If you find a manufacturing flaw after I've inspected it, I'd be happy to tell my husband, "Look, there is someone who is pickier than me."

If you prefer buy one of our many items in stock. Please look through our selection to find just the right piece for yourself and then tell your friends what you've discovered. If you see one of our designs, but would like to alter it a bit or have your own piece that you want duplicated, please let us know. Our artisans are truly gifted and take pride in each piece they make. **We update our collection every week.**

At **http://www.wholesale-silver.jp/**, we believe in our products and want you to enjoy your **jewelry** for your lifetime. Knowing how to take care of your jewelry will help in this endeavour. Therefore, each item comes with a velvet bag and silver polishing cloth. We believe an informed customer is a satisfied customer.

We offer our customers great value and 100% satisfaction when purchasing our fine quality silver whether it be **wholesale or retail**.

We strive to make our website a user-friendly experience. Please contact us should you have any comments, problems or suggestions.

We look forward to your order and to adding you to our list of satisfied customers.
